Dallas, TX. 75203

Dear Roger and Dorcie I want to take this opportunity to say Thank You. I really appreciated your time and warm hospitality you provided last week and my time visiting TW Design. I enjoyed meeting your staff, touring your facilities and the once in a lifetime experience of having Roger show me how to take a square block of foam and turn it into a fantastic looking scene for a train layout. I consider myself a newbie in the train layout arena and have met some incredible individuals to assist me in learning new skills required to build my layout. But none anymore gracious and kind as Roger. From the first time I met and talked with Roger at York in October 2009 I have valued his expertise, but more important his friendship. The train hobby to me is about learning new skills, meeting new friends and having fun. Roger has provided all these things and I am most appreciative. And as much fun as Roger is, Dorcie is even more fun to hang around with.

Scenery for the train layout is the scariest aspect for me. With the information, instruction and skills that Roger provided last week I can honestly say that I am looking forward to beginning the work on my layout. And the best part is, I know that if I need further assistance that Roger will be there to help me along.

I look forward to the day when I can partially return your hospitality and have you visit my home and train layout in Florida. To my new friends in Texas, Thanks Again!
